EDUCATION

Guru Nanak Institute of Technology

Kolkata, India

B.Sc. in Cyber Security (Aug, 2024–May, 2028)

- Class Representative for B.Sc. Cyber Security (2024–Now).
- Participated in 3+ hackathons including ISRO Hackathon.

PUBLICATION

Blockchain-Based IoT Security: A Comprehensive Review of Architectures, Challenges and Future Directions

IEEE ICRCICN Conference, 2025

Co-authored an IEEE indexed review paper analyzing blockchain frameworks for IoT security

EXPERIENCE

Infotact Solutions

Aug 2025 – Oct 2025

Associate L1 — Web Development Intern (Remote)

- Designed, developed and tested front-end modules for client web apps, improving UI reliability and load performance.
- Conducted secure code reviews; identified and mitigated vulnerabilities following OWASP standards.
- Assisted QA team in cross-browser testing, increasing defect detection rate and reducing regressions.

Prodigy InfoTech

Jul 2025

Full-Stack Developer Intern (Remote)

- Developed interactive frontend components and Flask backend endpoints with secure-by-design principles.
- Implemented secure input validation, basic auth flows and REST API integration improving robustness.
- Received certificate of completion and letter of recommendation for high performance.

Internship Studio

Aug 2024 – Sep 2024

Website Design & Development Intern (Remote)

- Built responsive and accessible UIs with client-side validation improving user experience.
- Implemented UX and SEO enhancements based on user feedback, improving usability on mobile and desktop.

TECHNICAL PROJECTS

Cyber Threat Analyzer | Python (Flask), JavaScript

2025

- Built URL scanning tool with risk scoring and a threat insight dashboard.

FreshMart E-Commerce Platform | HTML, CSS, JS, Flask

2025

- Integrated modular JS components with demo Flask backend for product/order management.

Interactive Analytics Dashboard | HTML, JS, Chart.js

2024

- Created multi-chart dashboard with time-series, bar and pie visualizations.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, SQL, Bash

Frameworks: Flask, React (learning), Node.js (learning), Bootstrap, Chart.js

Tools: Git, GitHub, VS Code, Linux, Browser DevTools, Vercel, REST APIs

Security: OWASP Top 10, Secure Coding, Input Validation, Threat Modeling

Soft Skills: Teamwork, Problem Solving, Communication, Leadership, Agile Methods

CERTIFICATIONS & ACHIEVEMENTS

Mastercard Cybersecurity Job Simulation • Tata Cybersecurity Analyst Job Simulation • Cisco Certificate • JavaScript Bootcamp • ISRO Hackathon • SkillHigh Web Dev Hackathon • Introduction to CIP
